DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 – 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Tsunoda et al '396.

Tsunoda shows an endless track 1 comprising a body of elastomeric material with an outer surface and an inner surface that include a series of longitudinally spaced guide blocks 3 comprising a front face, a rear face and opposite side faces 3₃, wherein the opposite faces are formed of low friction pads (surface of guide block, column 1, line 46-62, and column 2-5) which is made of low friction resin material of UHMW integrally molded to the elastomeric material forming the guide blocks, wherein the pad covers substantially an entire surface as now claimed.

Conclusion

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 3611

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
